Features:

- Self priming up to 8 vertical feet
- Can run dry without damage
- 12 VDC operation
- Built in check valve

This compact and economical pump can be used for general purpose water delivery, or will dispense on demand using the built-in 60 PSI pressure demand switch. All 8000 Series positive displacement pumps are self priming, and will run dry without damage. Designed for 12 VDC operation, this pump can be equipped with the compact Twist-on Strainer for added reliability. Pump's unique design allows for easy maintenance, unmatched reliability and trouble free performance.

Model	Description
8000-443-136	Standard Demand Pump 1.8 GPM open flow, EPDM valves, Santoprene® diaphragm, 60 PSI Demand Switch, 1/2" MPT-Male ports, Poly Housing
8000-443-236	Standard Demand Pump 1.8 GPM open flow, EPDM valves, Santoprene® diaphragm, 60 PSI Demand Switch, 3/8" NPT-Female ports, Poly Housing
